La linea Tradizione comprende modelli senza tempo, che mantengono intatto lo stile originale. I modelli Tradizione sono sinonimo del marchio Scandalli in tutto il mondo; in particolare il Super VI Extreme. Quest'ultimo, oggi come allora, presenta le stesse peculiarità tecniche e gli altissimi standard di qualità che lo hanno reso uno strumento unico al mondo.

The Tradizione Line includes timeless models that preserve untouched their original style. The Tradizione models are synonymous with the Scandalli brand all over the world; especially the Super VI Extreme. Now as then, the Super VI Extreme presents the same technical features and the highest quality standard, which have made this instrument unique in the world.

Groove è uno strumento pensato per adattarsi a molti stili. Uno strumento versatile che combina esigenze diverse, offrendo un suono forte e robusto tipico dei nostri modelli cromatici di alta gamma, ma con un range di note più ampio. Grazie alla forma e alle dimensioni della cassa, è adatto a tutti i musicisti, compresi coloro che sono abituati a suonare con fisarmoniche a convertitore. Una fisarmonica davvero per tutti, completamente personalizzabile con la versione che meglio si adatta alle tue preferenze.

Groove is an accordion designed to adapt to many styles. A versatile instrument that combines various needs, offering a strong and sturdy sound typical of our top-of-the-line chromatic models but with a wider range of notes.

Thanks to the shape and size of the case, it is suitable for all musicians, including those ones used to play with converter accordions. An accordion truly for everyone, fully customizable with the version that best suits your preferences!

Cassotto	YES		*on demand				

La linea Intense rappresenta l'eleganza, la finezza e l'essenza stessa del legno. Si compone di strumenti completamente fatti e rifiniti in "legno armonico". Il suono senza orpelli esce morbido e caldo, quasi palpabile. Una linea per i sognatori, i romantici ma anche per chi cerca la bellezza e la perfezione nella semplicità. Disponibile in diversi tipi di legno come mogano, noce ed acero: possono presentare sfumature diverse sia nella superficie della cassa che nel suono, ma è proprio questa l'incantevole magia del legno.

The Intense line represents the elegance, finesse and the essence of natural woods. All instruments in this line are completely made and finished in "harmonic wood". The sound without artifices comes out soft and warm, it seems to be palpable. A line for the dreamers, the romantics and also for those people who look for the natural beauty in simplicity. Available in different kinds of wood like mahogany, walnut and maple: to show the different nuances in the case surface and in the sound, which is the enchanting enduring magic of wood.

La linea Air è sinonimo di modernità. Modelli pensati per fare “un passo avanti”, compatti, leggeri, dinamici ed ergonomici. L’esperienza che si è voluto fare è stato quello di accostare al suono antico ed inconfondibile della Scandalli un design innovativo, aggressivo e giovane. La versatilità di questa linea si presta molto anche a personalizzazioni di ogni tipo, dalle verniciature sgargianti, alle decorazioni folk al “look” total black.

The Air Line is synonymous with modern design and development. The models of this line are a step forward, compact, light, dynamic and ergonomic. The Air Line is the outcome of extensive development; in which the ancient and unmistakable Scandalli sound has been combined with new innovative, aggressive and modern design. The versatility of this line is also suitable to every kind of customization, from loud painting, folk decorations to total black “look”.

EXTREME PLUS

La linea conservatorio è la linea dedicata agli strumenti con convertitore. Questi modelli in continua evoluzione rappresentano l'incontro tra le conoscenze e le capacità degli artigiani e le esigenze del musicista professionista. I modelli di questa linea sono eleganti e sofisticati, complessi dal punto di vista meccanico e tecnico ma sempre più maneggevoli. Nel corso del tempo questa linea ha subito miglioramenti sempre più significativi: si è cercato infatti di mantenere l'altissima complessità tecnica riducendo quanto più possibile il peso e le misure della cassa armonica. L'ultima innovazione ha portato alla creazione della Extreme Plus, uno strumento insuperabile nel suo genere. Questo modello presenta una sostanziale caratteristica, unica nel catalogo Scandalli: tutte le ance sono montate su piastre uniche di alluminio invece che sui tradizionali piastrini singoli. Ciò ha permesso di creare un suono di grande potenza e sensibilità, un ampio range dinamico ed un equilibrio perfetto tra le due parti.

EXTREME PLUS piano

The Conservatorio line are free bass instruments. These models, in constant development, represent the meeting point between the artisans knowledge and skills and the latest technological developments to fulfil the needs of professional musicians.

The models of this line are elegant and refined, complex from the mechanical and technical point of view but more and more manageable. Over time this line has been significantly improved; maintaining the high technical complexity yet reducing as much as possible, weight and size while retaining harmonics.

These latest innovations have led to the creation of the Extreme Plus, an unequalled instrument in its category. This model presents a substantial feature, unique in the Scandalli catalogue: all reed tongues are installed on a single plates of aluminium instead of traditional single reeds. This creates a sound of great power and sensitivity with a wide dynamic range and a perfect balance between the different parts of the accordion.
